

Science & Engineering is a civil and environmental engineering firm, dedicated to delivering innovative and sustainable solutions for infrastructure and development projects. With a wealth of experience in the civil construction industry, we take pride in our commitment to excellence and client satisfaction.

As a Registered Professional Engineer of Queensland (RPEQ) service provider, Director, Nigel Pola upholds the highest standards of professionalism and technical expertise.

With a versatile approach, we tackle projects as either a Contractor (EPC) or client-side professional, ensuring on-time and budget-compliant projects.
